ABOUT PENNINE

Pennine Healthcare is proud to be one of the UK's leading, employee owned, manufacturer and distributor, of single use, sterile Ward & Theatre Consumables and Custom Procedure Packs, and since our incorporation in 1963, the business has grown year on year. We market our products and services in over 50 countries worldwide and employ around 200 people at our purpose-built premises in Derby.

In line with our ISO 13485 accreditation, Pennine has a policy of continual improvement in order to meet the needs of the changing global standards for sterile, single use medical devices. Continual investment in people, training, and technology, has enabled us to provide an increasingly wide range of user friendly, high specification products. We also promote standards of safety, health, and welfare to provide a healthy and safe working environment.

Our vision will be delivered by supplying world class products and delivering distinctive customer service supported by a culture of continuous

improvement and investing in our people. Our core skills in manufacturing and engineering make us competitive through technological innovation, enabling us to be innovative, flexible and responsive, supplying healthcare organisations and businesses across the globe with the highest quality British manufactured products.

Pennine Healthcare is also proud to be one of the leading suppliers of PPE into healthcare settings, and as a hospital focussed company, we sell directly to healthcare professionals in all areas, including intensive care and operating theatres. In 2014 Pennine Healthcare saw the need to develop a range of PPE and Infection Control products, due to a lack of complete, high quality products available for the general public, and thus ARMA was born.

We hope you find what you are looking for in the following pages of this brochure, but if you do not, please do not hesitate to get in touch. We're a friendly bunch and love speaking to new, and old, customers alike.

PENNINE SURGICAL SUCTION RANGE

Our Surgical Suction Range offers superb quality, performance, and solution, to your surgical suction needs.

We strive to achieve the following in our Surgical Suction Range:

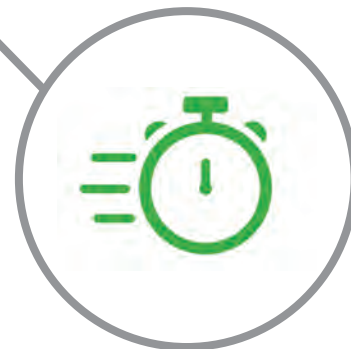

CHOICE

Whether you are looking for tubing, suction devices, probes, or more, our product range offers a variety of products in a range of lengths, diameters and connectors, to fulfil yours and your patients needs and requirements.

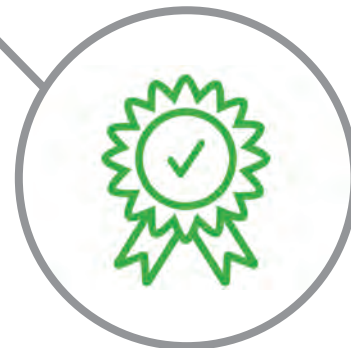

SPEED

Our Surgical Suction Range includes colour coding, for easy size identification, whilst certain products are provided in easy to open packaging.

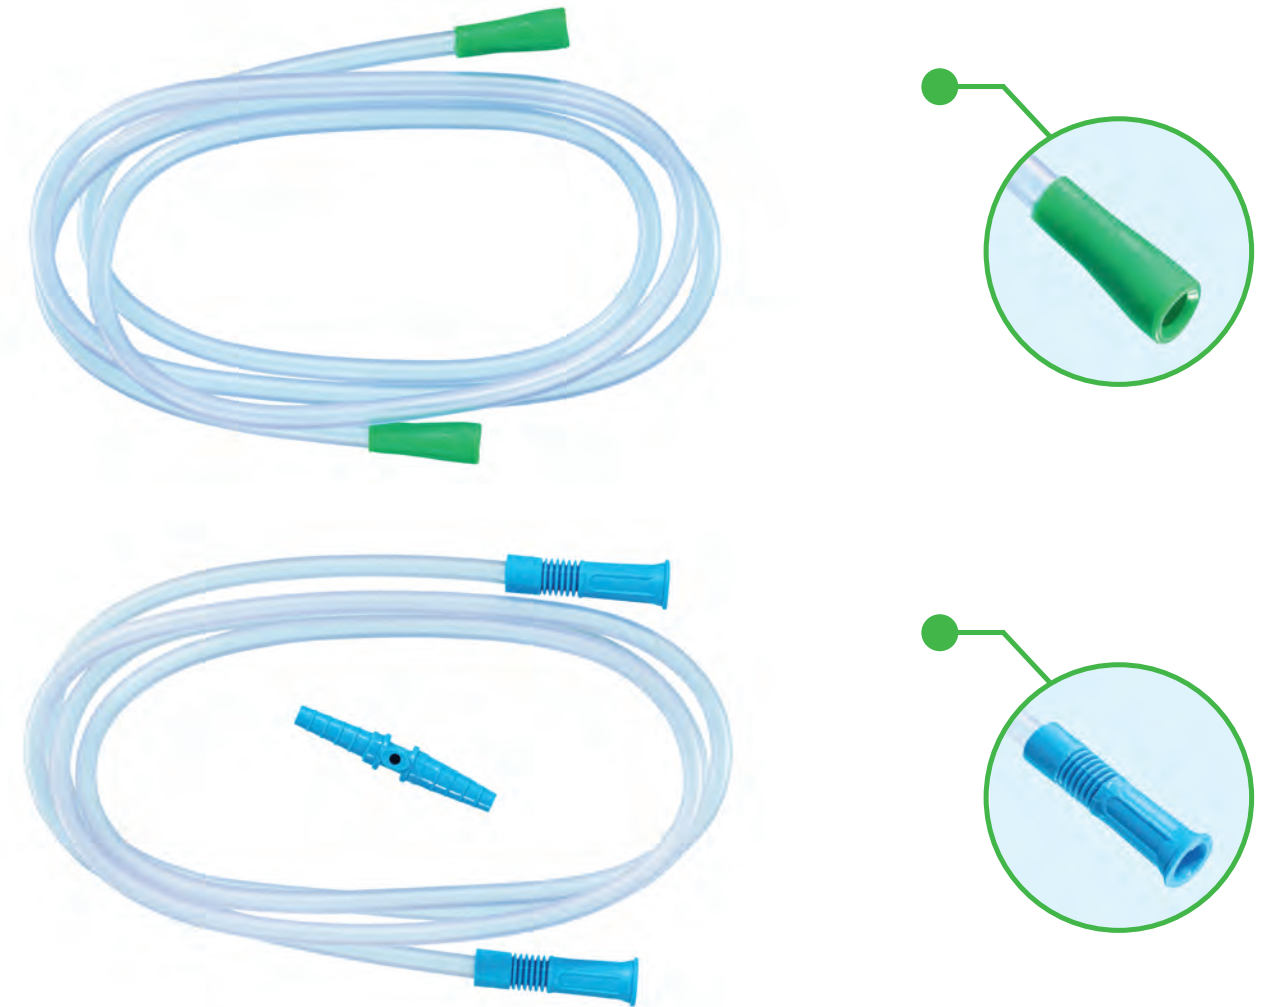

SAFETY

All of our products are Latex and DEHP free as standard, putting patient safety and the forefront of everything we manufacture.

In line with our ISO 13485 accreditation, Pennine has a policy of continual improvement in order to meet the needs of the changing international standards for sterile, single use medical devices.

SUCTION CONNECTING TUBING

Our Suction Connecting Tubing is a complete system to connect suction sources to suction waste collection systems, suction catheters, yankauers, suction probes and other suction devices. The full Pennine range offers easily connected, interchangeable tubing, in a variety of lengths and diameters.

- Sterile double wrapped individual peel pouches
- Colour coded funnel connector to denote tube size
- 'F' Funnel connector fits suction machines and male tapered connections for instrumentation
- 'M' (Male) connector push fits into the 'F' connector and is normally used to connect to the standard funnel fitted on suction catheters. Can also be used to connect lengths of tubing together for longer lengths
- Application of 'M' connector with 'VC' (vacuum control) vent converts a standard catheter to vacuum control application

SOFT SUCTION CONNECTING TUBING

Our Soft Suction Connecting Tubing is used to connect suction sources to suction waste collection systems, suction catheters, yankauers, suction probes and other suction devices.

- Softer PVC grade tubing for enhanced drapability
 - Available in 5mm, 6mm and 8mm (internal diameter)
 - Sterile double wrapped individual peel pouches
- Tested up to 0.6 bar pressure
 - Colour coded funnel connector to denote tube size

FLEXI-RIB TUBING

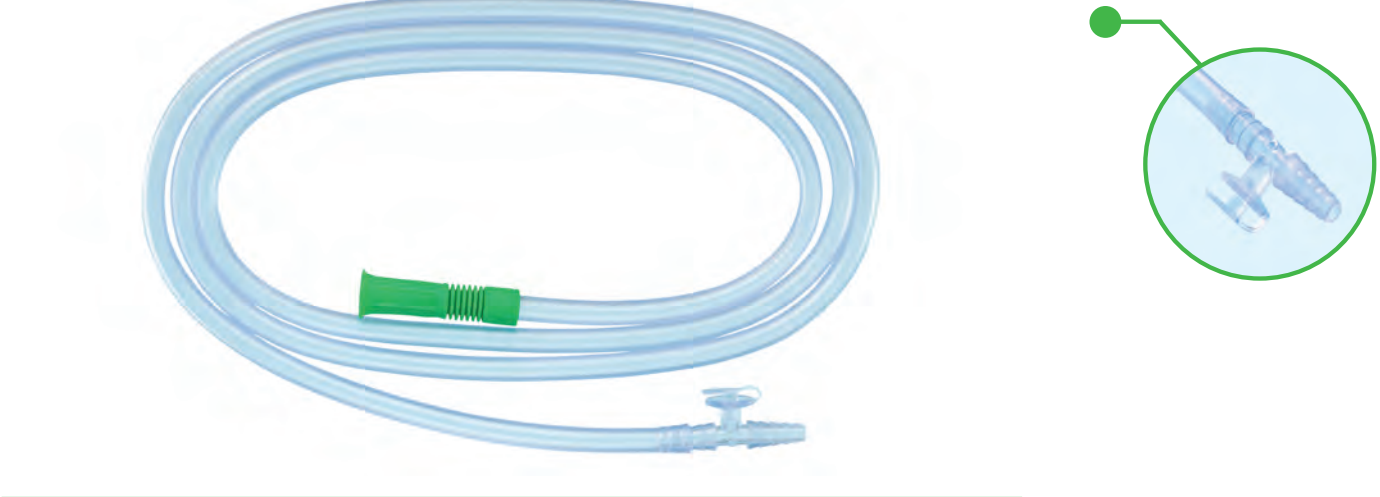

Our Flexi-Rib Tubing is used to connect suction sources to suction waste collection systems, suction catheters, yankauers, suction probes and other suction devices.

- Ribbed connecting tubing for enhanced drapability
- Resistant to kinking
- Economical box size
- Colour coded funnel connector to denote tube size
- Sterile double wrapped individual peel pouches

TUBING CONNECTOR RIGID

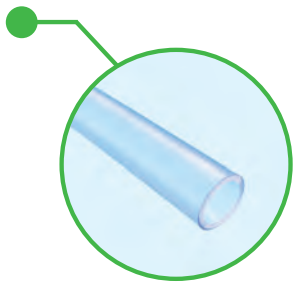

This Tubing Connector Rigid can be used to extend length of tubing, of either the same or different diameters.

- Clear PVC, single use only
- Available sterile and bulk non-sterile
- Designed for use with all types of tubing

Product Code	Type	Qty per Box
DP-501	Sterile	100
DP-501/Bulk	Bulk, non sterile	500

LINK SUCTION CONNECTING TUBING

The Pennine Link tubing is used for connecting suction sources to suction waste collection systems, suction catheters, yankauers, suction probes and other suction devices. Tubing has an integral female funnel and a tapered male end to provide adaptable connections.

- Sterile double wrapped individual peel pouches
- Disposable PVC tubing
- Available in two diameters, 5mm & 7mm

SL-8055	Plain	50m	24CH	5mm	4
SL-8056	Plain	50m	26CH	6mm	4
SL-8007	Plain	30m	28CH	7mm	7

LINK YANKAUERS

Our Link Yankauers are rigid, transparent suction devices for use with suction connecting tubing. For general purpose and fine suctioning, as well as suction of large volumes. Also available as a set, pre-attached to 2 or 3 metre tubing.

- Sterile double wrapped in individual peel pouches
- Available with or without VC (vacuum control) vent
- Short mini, Mini fine, Midi and Maxi Yankauers available with smooth rounded end or Super Tip
- Midi Yankauer available with additional Atraumatic Tip to reduce tissue grab

DERBY YANKAUERS

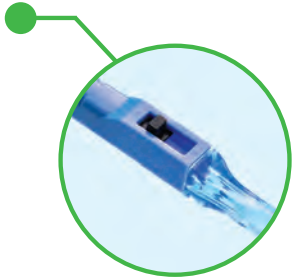

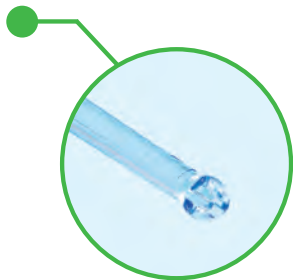

Our Derby Yankauers are clear, acrylic suction devices, similar to traditional yankauer suction probes. With or without sump tip to reduce potential tissue suction during use.

- Sterile double wrapped in individual peel pouches
- Available with or without VC (Vacuum control) vent
- Available with or without sump tip to reduce the risk of tissue damage
- Ergonomically shaped handle for a comfortable grip during use

Product Code	Type	Length	Diam.	CH	Qty per Box
* AEYS3004	with sump/rose tip	270mm	4.2mm	24CH	50
* AEYS3005	with sump/rose tip, VC	270mm	4.2mm	24CH	50
* AEYS3014	with straight/flat tip	270mm	4.2mm	24CH	50
* AEYS3015	with straight/flat tip, VC	270mm	4.2mm	24CH	50
YS-3000	Midi Yankauer with straight tip	265mm	6.66mm	20CH	50
YS-3001	Midi Yankauer with VC	265mm	6.66mm	20CH	50

SELECTAVAC YANKAUERS

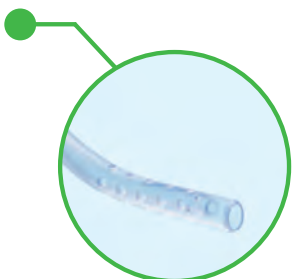

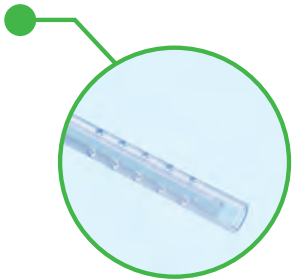

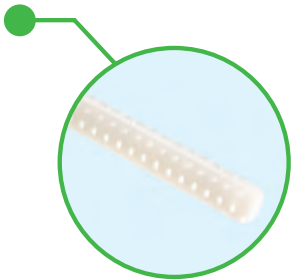

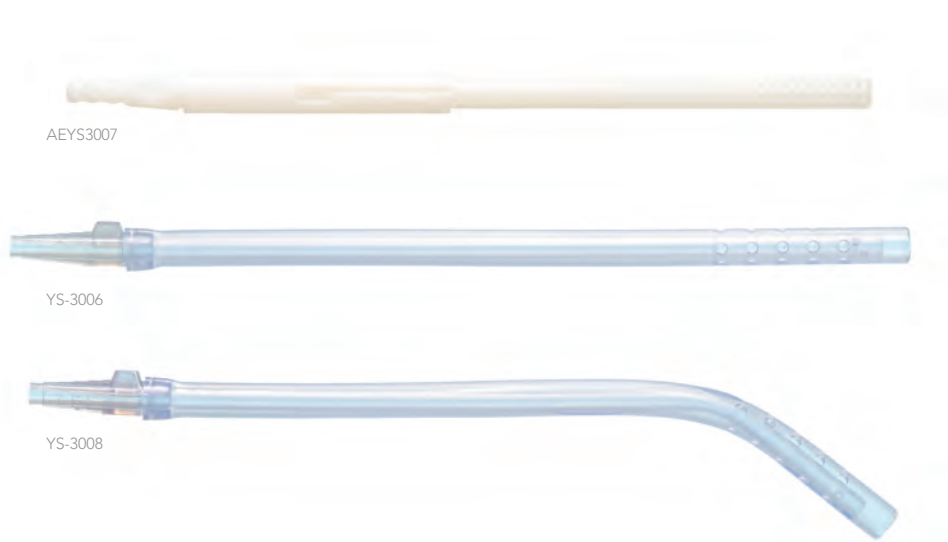

Our Selectavac Yankauers are surgical suction probe with switch on and off valve, available with bulb tip and straight tip.

- Switch system allows the operator to manually open and close suction
- Easy connection to Pennine range of tubing
- Supplied sterile, double wrapped in individual peel pouches

Product Code	Type	Length	Diam.	CH/Tip	Qty per Box
* AEYS3009	Bulb Tip, with On/Off Slide Switch	265mm	4.2mm	24CH	50
* AEYS3010	Straight Tip, with On/Off Slide Switch	265mm	4.2mm	24CH	50

POOLE SUCTION PROBES

Our Poole Suction Probes are flexible or rigid ‘sump’ suction devices with removable inner suction probe and outer perforated sleeve. Used for general or abdominal suctioning and where larger volumes of fluids may need to be suctioned away without causing trauma to the surrounding tissues.

- Available with angled tip
- Sterile double wrapped in individual peel pouches
- Removable inner probe

Product Code	Type	Length	Inside Diam. mm	CH/Tip	Qty per Box
YS-3006	Flexible straight tip	300mm	6.66	20CH	50
YS-3008	Flexible angled tip	300mm	6.66	20CH	50
* AEYS3007	Rigid (white)	264mm	6.5	15CH	50

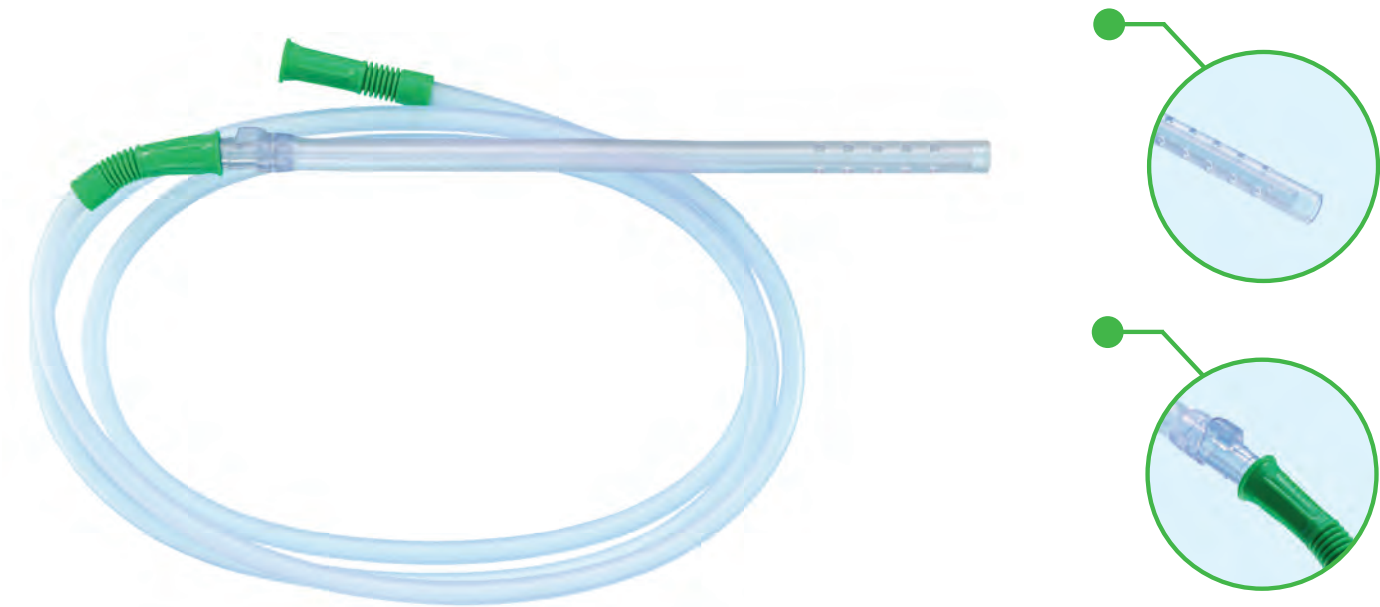

For more information on our product range please contact us on +44 (0) 1332 794880 or alternatively send an email to customer.services@penninehealthcare.co.uk

ENDO-FLEX SUCTION PROBES

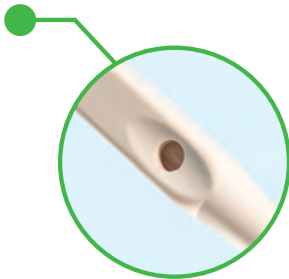

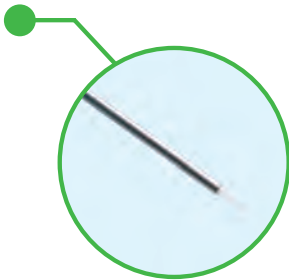

These Endo-Flex Suction Probes are used for general suction where longer probe length is required. All 12CH tubes with varying probe length. Fingertip vacuum control with tapered male connector end of prestrut to fit Pennine connection tubing.

- Sterile double wrapped in individual peel pouches

Product Code	Length	CH/Tip	Qty per Box
YS-3128/20	29.8cm	12ch ø 4.00mm	10
YS-3128/26	35.8cm	12ch ø 4.00mm	10
YS-3128/40	49.8cm	12ch ø 4.00mm	10
YS-3128/60	69.8cm	12ch ø 4.00mm	10

FRAZIER PROBES

Our Frazier Probes are sterile single-use probes. With 'VC' vacuum control hole for precise control over the amount of suctioning. Used in open surgical procedures where delicate suctioning is required.

- Malleable shaft can be bent to desired position
- Sterile double wrapped in individual peel pouches
- Longer probe
- Longer, non-slip handle

Product Code	Length	CH/Tip	Qty per Box

CAMERA COVER

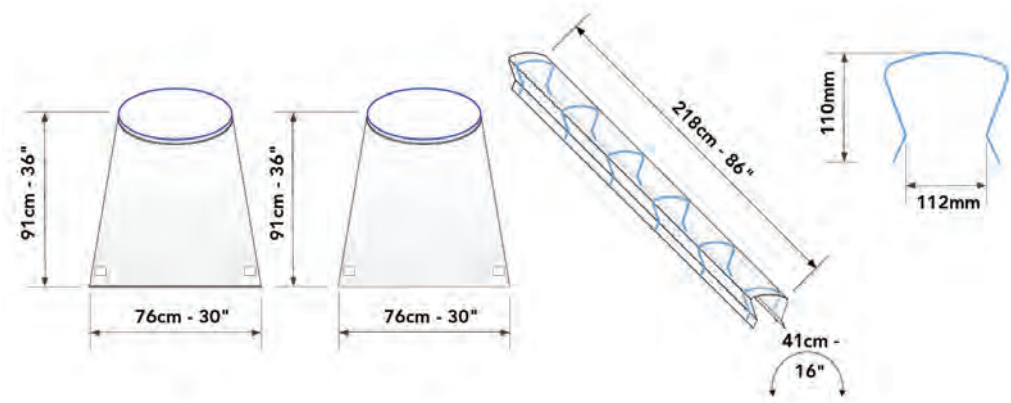

The disposable camera sleeve is a sterile, single-use disposable drape made of tough, thin polyethylene. The drape is the quickest and simplest way to create a sterile field for use with video/ camera systems during operative laparoscopic procedures. The tape used to secure the camera drapes is elastic and allows a secure and tight closure.

- Made of high grade special anti-blocking PE film
- One strip of adhesive tape
- Film stored in a ring.
- Supplied sterile

Product Code	Description	Size	Qty per Box
* E6222	Camera Cover, Open Tip, Ring Applicator	249cm x 15cm	64

C-ARM DRAPE

*E6018 product drawing pictured

This 3-piece C-Arm drapes is designed to cover x-ray image intensifier equipment and protect the sterile field during surgical procedures.

- Two bonnet covers for the x-ray tank and image intensifier head
- Integral clips for secure fit
