

# Key Supplier to Pack Manufacturers

Pennine Healthcare is a key supplier to leading global pack manufacturers. Our range of manufactured products are accredited to MDR European Union Medical Device regulation. We work together with customers to enable value adding partnerships, built on honesty, trust, and responsiveness. Sustainability is critical for pack manufacturers and we are working on innovative materials to meet customers' and markets' requirements.

## NON-STERILE PRODUCTS

Our Non-Sterile range provides quicker lead times, reduced packaging, and a reduction in freight, handling, and picking costs. This means you will receive the devices you require, quicker, cost effectively and in a more sustainable manner.

Whether you are looking for Link Yankauers, Poole Suction Probes, Suction Tubing or more, our product range offers a variety of products in a range of lengths, diameters, and connectors, to fulfil yours and your patients' needs and requirements.

## NON-PVC PRODUCTS

We are delighted to announce we have been working on a project behind the scenes here at Pennine HQ to launch our new range of sustainable products – Non-PVC.
