ABOUT PENNINE

Pennine Healthcare is proud to be one of the UK's leading, employee owned, manufacturer and distributor, of single-use sterile and non-sterile Ward & Theatre Consumables and Custom Procedure Packs, as well as one of the leading suppliers of PPE to healthcare settings.

Since our incorporation in 1963, the business has grown year on year, and we market and distribute products in over 50 countries worldwide, employing around 180 people at our purpose-built premises in Derby. The site covers almost 100,000 sq ft, incorporating an area for storage and loading, capable of handling over 4,500 pallets. We are also home to some of the most sophisticated technology in the industry, including three state-of-the-art clean rooms, operating to BS EN ISO 14644-1 standards.

In line with our ISO 13485 accreditation, Pennine has a policy of continual improvement to meet the needs of all our customers, while continual investment in people, training, and technology has enabled us to provide an increasingly wide range of user-friendly, high-specification products.

As a healthcare manufacturer, we understand the importance and requirements of the products we produce, combining this with promoted standards of safety, health, and welfare to provide a healthy and safe working environment for all staff members.

We are committed to minimizing our direct impact on the environment and are continually working towards improving our environmental performance, integrating recognised best practices into all our business operations.

We were proud to become an Employee-Owned Trust in 2021, ensuring the business stayed in the city of Derby, while recognising staff for their hard work and commitment throughout the years.

In 2023, we were delighted to win the prestigious MAKE UK Midlands & East of England Manufacturing Matters Award, in line with our commitment to UK Manufacturing, as well as launching our Commercial Partnership Offering – specialising in Medical Device Packaging, Kit Assembly, and Contract Manufacturing.

PENNINE AIRWAY MANAGEMENT RANGE

Our Airways Management Range offers superb quality, performance, and solution, to your airway management needs.

We strive to achieve the following in our Airways Management Range:

CHOICE

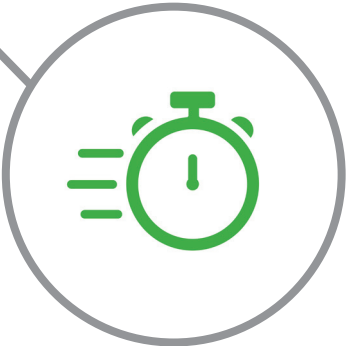

Whether you are looking for Catheters, Guedel Airways, or more, our product range involves a variety of lengths, diameters, and connectors, to fulfil yours and your patients needs and requirements.

SPEED

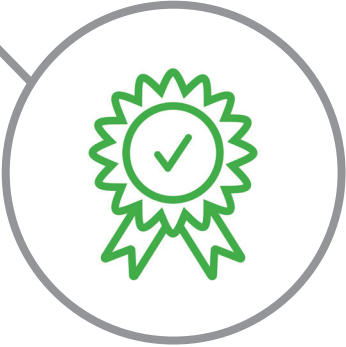

Our Airways Management Range are colour coded, for easy size identification. In critical emergencies the colour coding* system allows for instant identification of the size of the product contained within the pouch.

* Colour coding of products comply to ISO 5364:2016

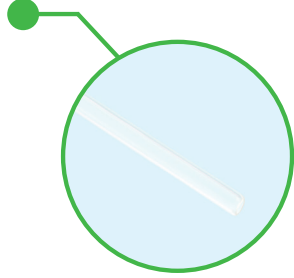

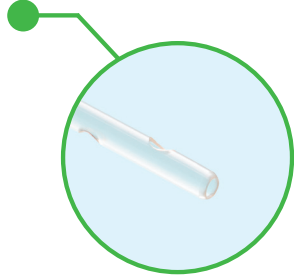

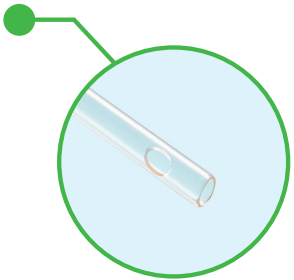

SAFETY

We are fully EU MDR Certified. All of our products are Latex free and not manufactured using DEHP as standard, putting patient safety and the forefront of everything we manufacture.

In line with our ISO 13485 accreditation, Pennine has a policy of continual improvement in order to meet the needs of the changing international standards for sterile, single use medical devices.

FUNNEL SUCTION CATHETERS

48cm/53cm/60cm

The product is used to provide access to respiratory tract to remove secretion with maximum comfort to the patient. Critically ill or injured patients who require a breathing (endotracheal) tube or tracheostomy tube need occasional suctioning to remove secretions from the airway.

- Medical grade PVC
- Sterile individual peel pouches
- Colour coded funnel end
- Length excludes connector
- Standard configuration= terminal eye, 1 side eye
- Double offset eye option=/DE
- Terminal eye only option=/TO
- 100 per inner box

ANGLED TIP SUCTION CATHETERS

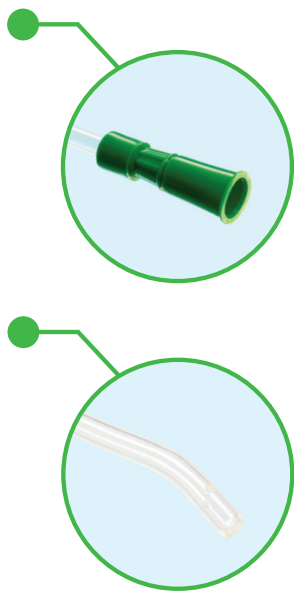

53cm

The product is used to provide access to respiratory tract to remove secretion with maximum comfort to the patient. Critically ill or injured patients who require a breathing (endotracheal) tube or tracheostomy tube need occasional suctioning to remove secretions from the airway. The respiratory therapist, nurse, or ICU technician suctions a patient by inserting a small flexible tube called a suction catheter into the breathing tube.

- Extra smooth low friction surface tubing facilitates easy intubation
- Angled tip to aid access
- A traumatic, soft & rounded open tip with two lateral eyes
- Colour coded connector for easy size identification
- Sterile, supplied in individual peel pouches

53cm Length	Qty Per Box	CH/Diam	
* AEOSC171053	100	10ch ø 3.3mm	
* AEOSC171253	100	12ch ø 4.0mm	
* AEOSC171453	100	14ch ø 4.7mm	
* AEOSC171653	100	16ch ø 5.3mm

MUCUS SPECIMEN TRAPS

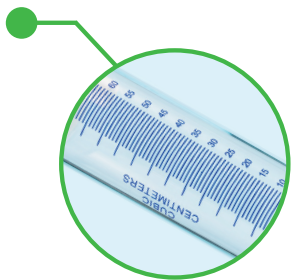

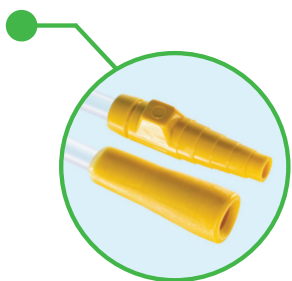

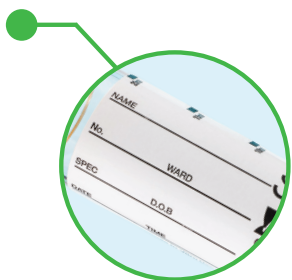

MST-3070

MST-3000

MST-4000

Mucus specimen traps designed to obtain mucus specimen for micro-biological examination.

- Sterile, individual pack
- 25ml or 70ml trap
- Attachment for suction catheter and suction connecting tube
- Patient details label
- Spare cap, screw fit

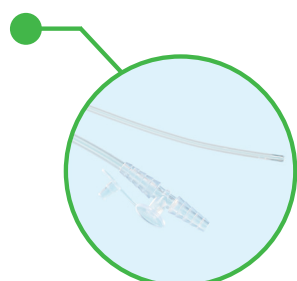

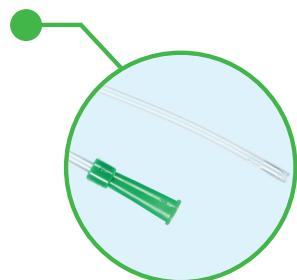

Product Code	Capacity	Type	Qty Per Box
MST-3000	25ml	With spare screw cap - 14cm tubing	50
MST-3070	25ml	With reduced length connection to suction catheter to ease movement of secretions to the trap. With spare screw cap & patient label.	50
MST-3180	25ml	With spare screw cap - 29cm tubing	75
MST-4000	70ml	For use in bronchoscopy. - 11cm tubing. With spare screw cap	50
MST-4000/S	70ml	For use in bronchoscopy. - 1mt tubing. With spare screw cap	25
MST-5000	25ml	With spare screw cap - 9cm tubing with VC	50
MST-7000	30ml	With male connector	50

MUCUS EXTRACTORS

Standard Funnel Control Connector

Vacuum Control Connector

Mucus Extractor designed to obtain mucus specimen for micro-biological examination.

- 20ml Trap
- With colour coded cap for easy identification of catheter size
- With standard funnel or vacuum control connector for attachment to suction source
- Spare cap, screw fit

Without Vacuum Control Connector

Product Code	Suction Tube Length	Qty Per Box	CH/Diam
ME-8108	25cm	75	8ch ø 2.7mm
ME-8110	25cm	75	10ch ø 3.3mm
ME-8112	25cm	75	12ch ø 4.0mm
ME-8114	25cm	75	14ch ø 4.7mm

With Vacuum Control Connector

Product Code	Suction Tube Length	Qty Per Box	CH/Diam
ME-9108	25cm	75	8ch ø 2.7mm
ME-9110	25cm	75	10ch ø 3.3mm
