

Introducing...

CRICOTHYROIDOTOMY PROCEDURE PACKS

As one of the UK's leading, employee-owned, manufacturer and distributor, of single-use sterile and non-sterile consumables, we are well versed in innovative solutions to support every outcome.

With 60 years of experience innovating, we are proud to introduce our Cricothyroidotomy Pack. In critical situations outside of a hospital environment where every second counts, ensuring a secure airway is paramount. Cricothyrotomy, involving an incision through the cricothyroid membrane, is a vital procedure when traditional intubation methods are not feasible.

WHY CHOOSE OUR CRICOTHYROIDOTOMY PACK?

ENHANCED EFFICIENCY:

Our pack consolidates packaged components into a single, ready-to-use tray, streamlining the procedure and reducing preparation time.

COST-EFFECTIVE:

By minimising the need to source individual components, our custom packs can lead to significant cost savings for healthcare providers.

IMPROVED PATIENT OUTCOMES:

Having all the essential tools at your fingertips ensures swift action, which is crucial in emergency scenarios.

WHAT COMPONENTS DOES YOUR CRICOTHYROIDOTOMY PACK INCLUDE?
