

KatKath™

TOMCAT URINARY CATHETER

KatKath™ Catheter

We're delighted to add the KatKath™ to our Pennine Veterinary portfolio, an atraumatic feline long-term urinary catheter that is easy to use and place.

Key Features & Benefits

- Simple open and close movement
- Non-Reactive Material which is Kink and Crush Resistant
- Rotating Suture Collar
- Low coefficient of friction
- May be left in situ for up to 7 days after unblocking the cat, negating the need for an additional catheter
- Available in 11cm and 14cm

Code	Description	Box Qty
1VTAAKK3511	Standard KatKath 3.5fr/11cm	10
1VTAAKK3514	Standard KatKath 3.5fr/14cm	10

Adjustable KatKath™ Catheter

The adjustable KatKath® with KatKlip, gives you all the benefits of the standard KatKath but with the addition of a simple locking fixation device.

Key Features & Benefits

- The KatKlip is small, more comfortable, and better tolerated
- Introduces the rotating collar used on the standard KatKath® catheters to avoid 'twisting' injuries
- The locking component is a different colour to the body of the fixation device for ease of use
- More easily sutured in place
- To use the full 18cm length simply remove the KatKlip and use as a standard KatKath™

Code	Description	Box Qty
